

DON'T LET NARCONON TREAT YOU LIKE THE DOPE.

You would be smart to find out who, and what, is really behind Narconon*, the controversial drug rehab facility trying to impose themselves on our community. They're working to get County approval for a rehab facility on Scientology* property on Bouquet Canyon Road. They promote themselves like it's a done deal. It isn't. They are attempting to manipulate our community with insufficient information and insignificant testimonials from people of questionable motives. Don't let anyone pull a fast one on you. Go to www.stop-narconon.org and get wise to Narconon.

It's YOUR NEIGHBORHOOD, YOUR SAFETY and YOUR PROPERTY VALUES at stake. Historically, once Narconon gets their facility approved, they expand. They buy up or rent more properties in the area. They bus in more addicts on a daily basis. DOZENS MORE PER DAY. If you let Narconon have their way, there will be hundreds more addicts living here every year. New ones will be coming and going all the time. Plus, they are free to walk off from the facility whenever they want. They have "outing." Is that what you want to become of Leona Valley, Green Valley and Bouquet Canyon? Do you want to live in what could come to be known as, "that Narconon community."

Narconon has something big planned here. Very big. They stand to make tens of millions of dollars from this one facility alone. At everyone else's expense. But Narconon has already been stopped in other communities. They've been banned in public schools, and warned against by Federal, State and local government officials. Narconon's Scientology-based program and teachings have been deemed unscientific and unsafe. Their facilities repeatedly violate state law and ADP health and safety regulations, which endangers the addicts and we residents alike.

You live here because you love it. Narconon is here for big money. But public outcry letters to Supervisor Antonovich stopped Narconon approval. Now, the entire Los Angeles County Board of Supervisors wants to hear an Appeal from you. In person. Downtown.

Stand up for Leona Valley, Green Valley and Bouquet Canyon. Come to the Public Hearing. Stand shoulder to shoulder with your neighbors, and just say "No!" To Narconon. It's really that simple. It's the final Hearing. The decision will be made based on your being there. The Board of Supervisors will listen to you, if you show up. If you don't, they won't. Then who's the dope.
